Hi [redacted] 5.1.2e

Today is our national holiday (kingsday).

But happy to call you tomorrow.

 Onderwerp: call this morning

Dear [redacted] 5.1.2e

Could we talk some time this morning, for example around 0930 h or so (I am flexible).

I would like you briefly to outline your MoH contributions to WHO, the strategy behind this funding including in relation to development funding going also to WHO, and how you arrange work between Ministries so that you do not duplicate funding/give conflicting directions to WHO. Including how the strategic dialogue (the annual bilateral meeting) is prepared and carried out.

Please indicate a time you would be available and a phone nr where I can reach you.

Update;

- No decision/recommendation about individual mask use as of yet
- More or less exactly 50 % of the registered deaths (meaning a 100 + deaths) from covid in Norway has occurred in institutions/homes for the elderly. The media have covered the situation at some badly hit homes, but still no big issue I believe. Median age of deceased people varies between 83 and 85.

All the best;

[REDACTED] 5.1.2e

mr [REDACTED] 5.1.2e

Section for International cooperation
