Onderwerp: Draft consultation document on the optimal supply of medicinal product during COVID-19 outbreak

On behalf of [REDACTED]

Dear members of the EU executive task force,

It is critical to ensure the optimal allocation of medicines in this time of crisis. Responding to the clear request from the various stakeholders' groups and some Ministries, the Commission has drafted a guideline on the optimal supply of medicinal products during COVID-19 pandemic. We have used the recommendations formulated by the associations and the provisions adopted by some national agencies.

We would be very grateful to benefit from your expertise and huge experience in supervising all actors in the supply chain. I would like to ask for your comments by tomorrow so that the college of Commissioners can adopt the guidelines next Wednesday. I am very sorry for the short deadline but this guidance will only be useful if we act very quickly.

Thank you in advance for your comments and please send them to [REDACTED] 5.1.2e @ec.europa.eu by tomorrow **Friday 02 April e.o.b.** as [track changes in the document](#).
