En hierbij zoals al eerder aangekondigd in COREPER deze week de raadsaanbeveling opgesteld door CIE over een gecoördineerde aanpak tav restricties vrij verkeer in de EU. Deze raadsaanbeveling is dus ook onderdeel van de bredere discussie over meer coordinatie

Subject: COM proposal for a Council Recommendation on a coordinated approach to the restriction of free movement in response to the COVID-19 pandemic

Dear colleagues,

For your information, the Commission has today adopted a proposal for a Council Recommendation on a coordinated approach to the restriction of free movement in response to the COVID-19 pandemic. You can find the proposal attached.

The proposal very much builds on the constructive discussions in the Covid-19/Corona Information Group - Home Affairs during these past months. In particular, we would like to thank you for your feedback on the technical paper we shared last week, which further informed the Commission's proposal.

The Commission's proposal sets out four key areas for increased cooperation:

1. Common criteria and thresholds for Member States when deciding whether to introduce travel restrictions;
 2. Mapping of common criteria using an agreed colour code;
 3. A common framework for measures applied to travellers from high-risk areas;
 4. Clear and timely information to the public about any restrictions.

A press release summarising the proposal has been published on the Commission's website:

A press release summarising the proposal has been published on the https://ec.europa.eu/commission/presscorner/detail/en/ip_20_1555

Discussions on the proposal will take place at the Council level. The Commission will present the proposal at Monday's IPCR meeting.

Best wishes,
