Dear [redacted] 5.1.2e

I hope you and your family are healthy and safe.

Would it be possible to receive another update about the situation in Colombia (esp. Medellín, Bogotá, Cali, and maybe Barranquilla + Bucaramanga)? We found the update below very helpful. We will share the update with the hospitals and the governments of the CAS-BES, as before.

Furthermore I would like to check with you if you have any idea how many patients (and from what islands) are still coming to Colombia as elective or emergency patients? We are getting conflicting information from different sources ☹️. For instance, have these 50 patients from Sint Maarten actually arrived in Colombia (probably Cali)?

Thank you for your trouble.

Met vriendelijke groet,
