Subject: [Spam] CLCI Campaign COVID and Beyond
Importance: High

Hello [REDACTED] I hope all is well with you. I am also hoping that you might like to add your voice to our campaign?

Your Voice Needed

In line with the 2021 work programme CLCI is running a campaign, directed at the public, healthcare professionals and policy makers, to raise awareness of the importance of continuing with routine vaccination programs in the face of COVID-19 and future crises.

Members have highlighted that, during the COVID pandemic, regular vaccination programs have been neglected across Europe leading to a reduction in routine vaccination coverage for adults as well as children and adolescents.

In order to give the campaign real impact, we invite you to submit a short testimonial (a paragraph or two) which addresses the following questions:

1. Has COVID-19 raised the profile of vaccinating across all ages and stages of life (life-course vaccination) in your country?
2. How have (a) your government, and (b) your fellow citizens responded to COVID-19 vaccination (**If you have a personal story, we would be delighted to hear it**)?
2. What needs to happen post COVID in your country to encourage life-course immunisation and all the vaccination programs that make a resilient healthcare provision?

The testimonials will be presented as one or more blogs, looking not unlike [this](#), on the [website](#) and a newly created CLCI LinkedIn page, along with social media posts throughout the next few months. Mid campaign will be marked with a webinar in June and the campaign will be completed with the production of an opinion piece in November.

We plan to launch in April so do please send your contribution by reply to this email, along with a high resolution photograph if you wish, **before Monday 29th March**.

We will use funds raised from MSD to support this campaign

Thank you in advance for your input and I look forward to hearing from you very soon.

Stay safe
