Q&A – Part 1, 15.03.2021

Q1: There are many reports pointing out the urgency of tackling MENTAL HEALTH COVID-19 RELATED CASES:

What are the main measures that MS are putting in place or planning to do so during 2021?

Q2: Has your country implemented SELF-TESTS carried out at home as a prerequisite for access to certain services/locations? (e.g. in order to go shopping or to be able to use services of daily living, such as visits to the hairdresser, etc.) If yes,

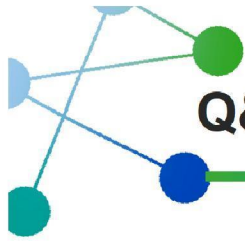

- What conditions must be met in your country for self-tests carried out at home to be recognised by the authorities?
- Can or must the test results be passed on to e.g. authorities? If so, how is this done?
- Are there differences in the recognition of test results along the test procedures (e.g. rapid antigen test vs. PCR test) or brand-specific test parameters (sensitivity/specificity)?
- How long are the test results recognised by the authorities in your country (e.g. 24 hours/ 48 hours etc.)?

No. of votes received: 20 → No. of votes for the selected topic: 5/5

Please ALWAYS use the chance to vote on the topics! The timeframe for voting will be appr. 1 week.
