Dear Mr [REDACTED]

I'm writing from the Pandemic Action Network, a network of almost 100 organisations from around the world who are committed to ensuring that the COVID-19 response is global and equitable, and that the world is better prepared for pandemic threats.

Please find attached a letter for the attention of Prime Minister Rutte ahead of the European Council meeting next week. In this letter, we urge you to take action to take the fight against COVID to another level and start seeing the end of the pandemic as soon as possible. Our recommendations include:

- Fully funding the ACT-Accelerator, including the Therapeutics and Diagnostics pillars which are particularly underfunded.
- Start to donate vaccine doses to Low- and Lower-Middle Income Countries.
- Start preparing for the future by committing to a funding mechanism for pandemic preparedness and prevention.

The emergence of new strains is putting progress at risk. This is why global action - and global access - is essential to end the pandemic for everyone everywhere. We also cannot afford to await until this pandemic has subsided until we work to prevent future pandemics.

We would be delighted to arrange a meeting with you or someone from your team to discuss this in more detail. We wish you all the best for a successful meeting next week. Thank you in advance for your support on these important matters.

Best regards,

[REDACTED]
