Dear [REDACTED] 5.1.2e

I hope this message finds you well. It has been too long since we have seen each other in real life!

Thank you for extending the deadline for the E&E Survey. I have completed the questionnaire, and have attached our answers. I would like to note that many of the questions make sense in the context of a centralized healthcare system, while the Dutch system does not have the same characteristics. I have tried to answer as best I could anyways. I am available for follow up questions if necessary.

Secondly, [REDACTED] 5.1.2e has sadly announced his departure as secretary general of the Ministry of Health, per June 1<sup>st</sup>. With him we lose a great advocate for digital health who has brought us a lot of passion, focus, ambition and fun in our goals for global digital health interoperability! His successor is not yet know and he isn't gone yet, but I wanted to inform you. Please use myself as the main contact for GDHP business.

Met vriendelijke groet, warm regards

GDHP [REDACTED] 5.1.2e on behalf of Chair, Evidence and Evaluation work stream would like to inform you that work stream on evidence and evaluation is performing a survey (as attached) to collect information on how digital health development strategies have been strengthened worldwide. Please see below message from Chair, Evidence and Evaluation for detail.

### **Evidence and Evaluation work stream**

Dear Colleague,

As discussed during the 7<sup>th</sup> GDHP summit, our GDHP work stream on Evidence and Evaluation is performing a survey to collect information on how digital health development strategies have been strengthened worldwide. The aim of this survey is to investigate aspects concerning: 1) the regulatory framework; 2) the allocation of funding; 3) the reporting of evidence; 4) the uses of data; 5) the communication of healthcare digitalization to people.

Results from this survey will allow us to prepare a whitepaper with the aim of highlighting how digital health is evolving globally and of promoting a shared approach to its future development. The survey will further reveal differences among GDHP countries, an advancement not just for the evidence and evaluation of GDHP workstreams, but also a starting point as we move towards a coordinated development of digital health solutions into practice.

We have designed the following questionnaire to fulfil these objectives and are kindly asking for your cooperation in completing it as soon as possible to share its results during the next GDHP meeting. We would really appreciate if you could return this questionnaire to **Dr.** [REDACTED] 5.1.2e [REDACTED] 5.1.2e ([REDACTED] 5.1.2e @unicatt.it) before **March 5<sup>th</sup>, 2021** .

We really thank you for your participation into this project.

Yours faithfully,

[REDACTED] 5.1.2e [REDACTED] 5.1.2e
