Ter info; CBP lijkt dus alsnog zelf vaccins geregeld te hebben uit de VS.

Onderwerp: Vaccines

Dear Minister Oduber and Friends in Aruba

Thank you very much for your help in trying to prioritize workers at the airport for vaccination.

We're now expecting to have COVID-19 vaccines coming to Curacao and Aruba from the U.S. next week, and we should be able to vaccinate the personnel at CBP Aruba.

The plan is for the vaccine to arrive in Curacao directly from the U.S. first, and then the doctor from the U.S. Embassy in Bogota would travel with a small amount of vaccine for the first doses for CBP in Aruba. He would then repeat that process three weeks later.

Execution of these plans is never 100% certain, and we have had some delays in delivery in the past, but we now feel fairly confident that this is actually happening, so I wanted to inform you in advance.

We'll be in touch with DBB Aruba separately with additional details on timing of the shipment itself.

Many thanks again for your cooperation!
