[Vaccines export authorisations public voting sheet 10 03 2021.docx.pdf](#)

Beste collega's,

De Commissie heeft net de 'public voting sheet' van de stemming over verlenging van het exportautorisatieregime naar de LS gestuurd, 25 voorstemmen, 1 onthouding en 1 tegenstem. De onthouding komt van ZWE en de tegenstem van IER.

Publicatie van de verlengingsregeling volgt. Ingangsdatum is een dag na publicatie, zaterdag de 13e.

Groeten,

5.1.2e

**Subject:** Netherlands vote Draft Implementing Regulation making the exportation of certain products subject to the production of an export authorisation

Dear Commission,

I can inform you that the Netherlands votes in favour of the proposal for a Commission implementing Regulation making the exportation of certain products subject to the production of an export authorisation, providing for the continuation of the current system until 30 June 2021.

In addition, the Netherlands makes the following voting declaration:

*With reference to the Netherlands' declaration on the implementing regulation making the exportation of COVID-19 vaccines subject to an export authorisation (Regulation (EU) 2021/111), the Netherlands reiterates the importance of the measures being temporary, targeted, proportional and transparent. The Netherlands notes that nearly all requests for an export authorization have been approved, and the regime has been used as intended, as mainly a transparency mechanism. The Netherlands acknowledges that the situation of the supply of COVID-19 vaccines in the Union is still critical. It is of great importance to protect the health of EU citizens as much as possible.*

*However, the prior authorisation requirements should be for as short a period as possible. The principle of international solidarity remains of the utmost importance. The Netherlands stresses the importance of withdrawing the export authorisation mechanism before 30 June 2021 in case the supply of COVID-19 vaccines in the Union improves significantly before that date, or in case of unintended consequences as a result of reactions of third countries.*

Kind regards,

5.1.2e
