Hi [REDACTED] 5.1.2e

Thanks for your reply. Have concrete plans / actions been taken by your department to respond to the calls? Or have any other institutes been contacting your department on this?

Best,
5.1.2e

Hoi [REDACTED] 5.1.2e

I realize I am late in my feedback, thus take the liberty of also copying [REDACTED] 5.1.2e on this email.

There are some items which are of potential interest to EVG/GZB either from a medicines point of view:

Under tackling diseases and reducing burden:

- Building a European innovation platform for the repurposing of medicinal products

Under ensuring access to innovative, sustainable and high-quality healthcare

- Enhancing quality of care and patient safety

Under Unlocking the full potential of new tools, technologies and digital solutions for a healthy society

- Optimising effectiveness in patients of existing prescription drugs for major diseases (except cancer) with the use of biomarkers

Please excuse me for submitting this so late!

Met vriendelijke groet,
Kind Regards,
