Dag 5.1.2e

Dit is al prachtig. 5.1.2e is er in ieder geval bij. 5.1.2e heb ik geprobeerd over te halen. Denk wel dat dat is gelukt. Zij is die dag vrij, maar ik heb vakantie. Vonden we geloof ik een eerlijke investering van beide kanten
 Maar we moeten nu groen licht van 5.1.2e. Dan kunnen we verder. Goedkeuring amendement duurt veel langer.

Groet

5.1.2e

Van: 5.1.2e

Dear all

I made a doodle ("datumprikker") for a conference call later this week on WP6 activities. Unfortunately only RIVM colleagues reacted up till know, whereas EC and ECDC contributions are of particular importance. Could please check whether there is any possibility to participate any of the suggested timeslots? Otherwise we very much appreciate alternative dates and times.

Subject: TC on WP6 activities JA SHARP

Dear all

As reported previously and discussed in the SHARP steering committee, we would value a discussion with ECDC and EC on the planned revised tasks for WP6, and particularly 6.2 and 6.3, dealing with testing strategies and citizen involvement.

We are in the process of finalizing the amendments on WP6, but need to align on expectations and agreement that we are doing the right things in terms of needs, timeliness and preventing repeting actions.

My plan is to send you all a doodle (datumprikker in dutch). Hope we find a mutually acceptable date and time.

Subject: TC on WP6 activities JA SHARP

Importance: High

Dear ECDC and WHO colleagues,

Last week during the steering committee of JA SHARP and prior to that meeting we discussed and mailed the need to discuss our revised plans for task 6.2. and particularly the activities concerning the citizens-interviews and the test-strategies.

We already proposed a TC. Could you please indicate date and time that suits you best?

I could try a doodle if that helps? But I do not know who you think is most critical to attend. So please let me know.

Looking at my own agenda -next week in the afternoons is most promising

Hope to hear from you

Kind regards

Subject: FW: Feedback on WP6 task revisions before 25 SEPTEMBER 2020

Dear 5.1.2e

You just received the mail below, which I sent to WP6 partners.

In addition to the feedback requested, I would like to see if there is a possibility to have a TC with the 2 of you on short notice (eg next week) on the present necessity of some of these subtasks (particularly the one on test strategies).

I understood from the coordinators that there are EU initiatives and activities ongoing which may make some of the planned activities in WP6 superfluous.

We would very much appreciate a discussion on this in order to refine WP6 tasks to those activities that are truly needed and will most likely be effective.

Hope you are both available next week. If so please let know what time is most suitable.

Kind regards

Subject: Feedback on WP6 task revisions before 25 SEPTEMBER 2020

Dear WP6 partners

As you know one of the pillars of WP6 plans was simulation of disease X scenario. The present SARS-CoV-2 pandemic has brought this scenario into real life.

The consequence for WP6 is that the planned tasks relating to disease X are probably superfluous and we thus needed to make quite extensive changes to our workplan.

5 - 6

5.1.2i Concept

Could you please send your answers to the questions above before FRIDAY SEPTEMBER 25, 2020 AOB, so we can use your input to adapt the plans of task 6.2. to better accommodate the SHARP partners countries your country's needs, to prevent duplication of actions and/or conduct of unnecessary or superfluous activities and to enhance feasibility of actions.

Thank you very much!! We need your input to assure WP6 activities remain valid within this new situation.

On behalf of the WP6 leads,
