Here it is

he screening of anyone on a mink farm without symptoms seems a bit excessive to me. I think the recommendation should be to have very intensive animal surveillanceT

Dear 5.1.2e

Well received, with many thanks.

We will address your comments to improve the rapid risk assessment.

5.1.2e review is also most welcome. Apologies in advance for the short deadline.

Kind regards,

5.1.2e

Subject: For your kind reply - Expert review of ECDC Rapid Risk Assessment on the detection of new SARS-CoV-2 variants linked to mink in Denmark

Dear colleagues,

ECDC is preparing a rapid risk assessment (RRA) on the detection of new SARS-CoV-2 variants linked to mink in Denmark.

We would like to kindly ask whether you are willing to support this RRA by providing your expert review.

If so, we would plan to share a confidential draft with you on coming Monday 9 November (probably around 13.00) for your feedback in the following 24h, as we plan to publish the RRA on coming Wednesday.

Please let us know of your availability and willingness to participate in the review of this ECDC RRA. We apologise in advance for the short timeline for your feedback.

If you kindly accept this task, and according to ECDC's regulations, you will need to submit a short declaration of interest for this specific event, or a generic annual form, which you may have already if you work with ECDC on a regular basis. Our colleague 5.1.2e will follow up with you on this issue on Monday.

Thank you in advance and looking forward to hearing from you.

Kindest regards,

5.1.2e

and

5.1.2e
