Dear Sir/Madam,

As the Dutch representative in the eHealth Network, based on Implementing Decision (EU) 2019/1765 on cross-border data exchange between national contact tracing and warning mobile applications in connection with combating the COVID-19 pandemic (CJEU L227I/1) as amended by Implementing Decision (EU) 2020/1023 of 15 July 2020, I hereby state the following:

- The Dutch contact tracing and warning mobile application is named *CoronaMelder*;
- The Netherlands expresses its will and intent to participate in and join the European Federation Gateway Service through our contact tracing and warning mobile application *CoronaMelder*;
- a completed version of the application form according to The Procedure to Connect and Disconnect the Participating Countries from the EFGS (European Federation Gateway Service) including Annex 1 (Survey) and check list regarding technical aspects is enclosed and hereby included by reference;
- *The Netherlands* hereby applies to initiate the on-boarding procedure according to The Procedure to Connect and Disconnect the Participating Countries from the EFGS (European Federation Gateway Service).

Yours sincerely,

DICIO-IBTA
