4. Test samples

Please prepare following test samples as well as technical documentation and certificates (if applicable):

Test samples:

- 20 per type/model; the lab adress for delivery of your test samples will be announced with the order confirmation.

Technical documentation:

- Instruction manual and original packaging

Please note that the tests can possibly be destructive.

This price quotation has been calculated based on the assumption that all critical components have already been investigated and have been classified as certified or approved. These test records have to be submitted before start of the tests. Please note that only test reports and certificates of independent and accredited testing institutes are accepted for further examination / validation.

5. Service Features

After the successful accomplishment of the testing you will receive following documents as a PDF file:

Test report/s: 1 in English

6. Appointments

For planning reasons, any order for examination should be placed as soon as possible.

Appointments will be set in dialogue with the client. The tests may start after order placement and under the condition that all test samples and necessary documents are available.

The test duration is estimated to be approximately 3.5 days. The actual delivery time will be announced with the order confirmation depending from the actual lab capacities.

7. Terms of Payment

Payment target: 50 % payment in advance, 50 % 14 days after receipt of invoice without any deductions.

DEKRA Testing and Certification GmbH reserves the right to issue partial invoices on a time and material basis, particularly after finishing partial tests, due to time interruptions of testing and in case of failing the achievement of a certification.
