[FINAL_20-00045_DROSTEN_nCoV_PCR.docx](#)

Dear All,

Here is the final MS version.

Please approve it as soon as possible.

Ok, then all that remains is for you to confirm that you approve this version for publication.
 I attach a clean final version with the references renumbered.

You also need to confirm (in those words), that all co-authors have seen and approve the final edited version.

We will need confirmation by 3 pm, latest 3:30, but it will be difficult to incorporate potential further corrections the later it gets.

Best,

[REDACTED]

Here you go.

We are almost there. A few clarification are still needed on p 4, p 10 and in the author contributions. Figure 2 has been corrected and replaced.

Please get back to me as soon as possible, so that we can start preparing the web version and the pdf.

These last open issues won't affect the content – they need to be solved, but if you want, you can in parallel already circulate this version with your co-authors for approval.

Best,

[REDACTED]

Betreff: [ext] eurosurveillance: NEXT DRAFT

Hi 5.1.2e

The manuscript has come back from clearance and is attached.

Please have a look and make sure to react to ALL comments, either by replying in the comments or by making the associate change in the text.

In particular, the abstract still needs to be rewritten, and the author contributions need to be added.

Please get back to me by 1 pm.

Provided that everything has been addressed, I will then prepare a clean version that you can circulate with your co-authors for approval.

In case you missed it, I repeat my previous reminder:

Before we can publish the paper, the corresponding author will need to confirm to us that **ALL co-authors have seen and approve the final edited version**. Since you have quite a lot of authors on your paper, it may be a good idea to contact them already now and alert them that they will be needed to approve on short notice at some point after lunch today.

I would be grateful if you could send a quick note saying that you have received this draft.

Best regards,

5.1.2e
