## Comment

Systematic review of studies on the impact of Covid-19 on treatment  
 No difference in mortality was found  
 Qualitative study

From a European registry, patient data from March&April 2020 |  
 Literature review on delays

Observational study using questionnaires and interviews on the

DM1 in children

Psychological effects of delay in IVF  
 Psychological effects of delay in IVF  
 Psychological effects of delay in IVF  
 Data non-covid related  
 Psychological effects of delay in IVF

Prediction model on the effects of 6 and 12 month delay for diff

Retrospective study in patient records  
 Demographics behind care avoidance  
 Ontwikkelingen maatregelen ivm bloedafname

Institutional experience

Observational study  
 Health effect of delayed stroke care in china  
 Retrospective study in patient records

Data non-covid related  
 Not Covid-19 related  
 Data from a cohort in Italy on short-term clinical outcomes

Delays in diagnosis and treatment of breast cancer in the Netherl

Numbers from the Dutch cancer registry on diagnostic delays

Model estimating health effects of delay

Model estimating health effects of delay  
 Data from a small cohort on short-term health outcome of dela  
 Cohort study evaluating health and healthcare utilization effects

Internettool to estimate additional risk of dying caused by delay  
Data non-covid related

A decision-analytic model is used to estimate the health effects of  
Gestratificeerd op leeftijd en stadium, 3 scenario analyses voor  
Scenario analyses voor gradatie uitstel  
Lung, colorectal, breast and oesophageal  
Deze studie is al bekend bij het team

Health effects of strategies to mitigate delays  
Not Covid-19 related  
Data non-covid related  
Data non-covid related  
Health effects of delays in surgery for patients with kidney cancer  
Health effects of delays in treatment per T-stadium  
Systematic review on data before the pandemic to assess health  
Based on US registration data

Post script letter  
Effect van covid-maatregelen op verloop anorexia e.d.  
Vragen vooral gefocust op ervaring covid periode bij GGZ patiënten  
Vanaf 65+  
We define mood homeostasis as the extent to which a person perceives  
Kleine inventarisatie van stopgezette activiteiten van hersensimulatie

Study assessing costs of delayed surgery. Uses a model with different  
Primary outcome was the proportion of complicated appendicitis
