Subject: 5.1.2e Potential collaboration opportunity with top pharma companies on innovative research projects related to COVID-19
Received: Wed 4/8/2020 10:39:29 AM

Dear 5.1.2e,

I hope this email finds you well,

I am reaching out to you as we are currently searching for novel research projects related to COVID-19 from academics and SMEs for our network of more than 100 leading pharma, biotech and medtech companies. Any projects related to novel therapeutic solutions, vaccines or diagnostic solutions are welcome.

Your proposals will be accessible – on a dedicated online private platform – to all companies searching for innovative projects related to the novel coronavirus. These companies will contact you directly to discuss collaboration agreements.

Do you have any promising projects on the topic? If yes, just reply to this email, and I'll send you more information about the COVID-19 Partnering Program, and how to get in touch with the pharma companies of our network.

This program is completely free of charge for everyone: academics, SMEs, top pharma, and is launched on a volunteer basis by Inospin's team members who want to help to find treatments in this actual pandemic.

Any help is appreciated: please do not hesitate to forward this email or contact me if you have any questions.

Thank you for your consideration,

Kind regards,

5.1.2e
