Dear Colleagues, as per 5.1.2e email below, an opportunity to join a network for SARS-COV-2 (COVID-19) monitoring in wastewater that is now coming together.

Best Regards, 5.1.2e

Subject: Re: SCORE Network support

Dear 5.1.2e

Hope all is well.

5.1.2e (5.1.2e) and 5.1.2e (5.1.2e) and also 5.1.2e and 5.1.2e from KWR, all decided to move things forward concerning the analysis of SARS-COV-2 in wastewater and I thought it would be a nice idea to invite also the EDAR community to join.

From our side it seems that with the help of KWR and experience from other networks we would like to share uniform protocols and contribute all together to an international effort.

Would this something that would be interesting from EDAR community side?

Awaiting for your opinion,

Objet : SCORE Network support

Dear 5.1.2e and 5.1.2e

Thank you for sharing your new initiative about an opportunity for the NORMAN network to contribute to international efforts to tackle the corona virus pandemic. We believe this is a great opportunity to contribute to this crisis and the NORMAN network is certainly an excellent network that can support this initiative.

We are writing on behalf of the Sewage Analysis CORE group Europe (SCORE) that has been founded more than ten years ago by a group of researchers interested in wastewater-based epidemiology (WBE) (<https://score-cost.eu/>). The WBE network has been expanded largely worldwide over the years and strong efforts have been made to develop protocols and minimize uncertainties related to this research field. The network initiated by 5.1.2e (who is still with us from Australia!) and 5.1.2e had 5.1.2e for several years and has now 5.1.2e as 5.1.2e and 5.1.2e as 5.1.2e We are now moving towards the new application of WBE related to virus

surveillance, which is very interesting for us.

We would like to suggest joining forces and avoiding duplication by offering our help, we will inform our network about your initiative and will share information in order to contribute when possible.

Finally we would like to inform you that currently a global common platform has being launched (<https://www.covid19wbec.org/>) in partnership with SCORE, we decided to support this initiative without initiating our own to join forces.

Looking forward hearing from you.

On behalf of the SCORE-core group

5.1.2e and 5.1.2e
