Our Mission

Our mission is to make specialist medical care possible in places where it seems impossible. We want to make that care affordable, efficient and fast for as many people as possible. In this way we contribute to reducing suffering in the world, to more stability in a region and we contribute to building communities.

Our Impact

We build medical solutions that are self-sufficient and can be made operational quickly in almost any part in the world. Thanks to our approach, we break through existing ideas about medical care and development cooperation.

In the future (after Covid-19) you can use this facility for a mobile hospital, and we can help you to make that complete. This way the investment is also safe for the future.

I hope we made you a fitting offer.

Thank you for the trust in our services.

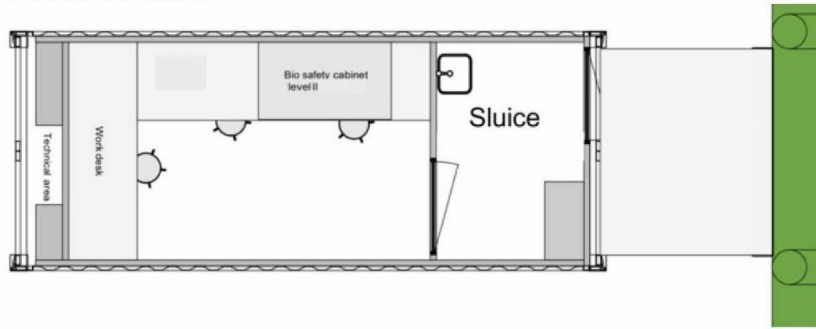

With kind regards,
