Dear 5.1.2e [REDACTED]

First of all I would want to introduce myself. I'm 5.1.2e [REDACTED] and I represent company Himedia Laboratories.

This company has just launched a product line of VTM. Please find attached two files some practical info. Due to big demand of these products, we have created a new line of 1,3mL capacity you will find in Variants_Final document in order to be able to reduce lead times.

In case you could be interested in these products, please let me know

Best Regards,
