Subject: Doorst: [Spam] Respirators, HME filters and masks

Hi triage team,

Meestal gooi ik dit soort aanbiedingen weg, maar ik check altijd wel even of het email adres bij een echt bedrijf hoort. Meestal dus niet maar in dit geval wel, het gaat om een bedrijf in medische artikelen.

Daarom heel misschien interessant??

Groet,
 [REDACTED] 5.1.2e

Onderwerp: [Spam] Respirators, HME filters and masks

Dear Sir/Madam

This is [REDACTED] 5.1.2e from Shanghai Zhenpu Medical Apparatus Co.,Ltd. I am [REDACTED] 5.1.2e of international business department. Our company, which is established in 1990, is the first company that manufacture medical filter in China. We participated in compiling the industry standards for "Liquid Filter", "Air Filter" and "Blood Filter". Now the product lines have been expanded into hundreds of specifications. Of which the HME filter is a popular type recently.

From the beginning of 2020, because of the reason you must know, COVID-19, we are required by the local government to produce disposal medical masks. We have such kind of technology because we produced the melt blown fabrics by ourselves, as the membrane in the filters. And it is actually the most important raw material of medical masks.

Recently, our medical masks got the "General Obligation to Notify pursuant to §§ 25 and 30 (2) Medical Devices Act, MPG, Form for Medical Devices except In Vitro Diagnostic Medical Devices".

Here I want to explain a little, about the situation of CE certificate. Since the disposable medical masks(non-sterilized packaged) are classified into Class I in EU, actually the CE certification is not applicable. The CE certifications you can see all over the world are not compliant.

This was a great news. And now we can officially supply masks (both 3 layer fold masks and cup shaped

masks).

Please reply if you have seen this email, we are sincerely willing to help. According to the experience in China, we know how to do, and we have the confidence to win the fight against the virus.

Best Regards
