

I have some good news:

AlphaBeta BV has now been authorised to represent Aeonmed (ICU Ventilators) products in Europe.

I am glad to send you all paperwork if this is something you find interesting.

2.

AlphaBeta has access to 1000 VG-70 devices (CE and FDA approved - High-End ICU Ventilators).

Kindly let me know if this is of any interest to you.

I am glad to send you all paperwork if this is something you find interesting.

3.

We have immediate access to 60 units (ready to ship) of SuperStar S1100 ventilators.

Brochure is attached (PDF). The S1100 was purchased in high quantity by the USA.

These are normally high priced and are sold for about 5.1.1c USD however we are able to source them (for now) for 5.1.1c USD. They can be shipped immediately.

Please let me know if this is of interest to you.

I am glad to send you all paperwork if this is something you find interesting.

Kind regards,

gekozen.

antwoorden op de eerste 3 vragen van de laatste mail:

1. Regarding the request for the ventilators coming from an authorized distributor - **we can have this arranged if they sign an LOI.**
2. The location of the ventilators **can be disclosed with a LOI**
3. Conditions of proposed agreement isn't a problem - **we can easily provide conditions.**

Price: 2 Additional price advantages to the situation regarding Ventilators:

I. Model: Aeonmed VG70 - FDA approval + CE APPROVED, TUV, ISO, Price per unit is :

5.1.1c

Available Stock Quantity today - 700 units (and we are opening up more stock - we got people now verifying stock), The VG70 is a model we sold to the State of New York.

Shipping - immediate

five Chinese companies do have the right to export with export certificates. They sofar made 5.1.1c - on every ventilator. And last night after long negotiations, they have accepted a deal to run other equipment from our group and drop the commission on ventilators, so now the ventilators became 5.1.1c cheaper all of them. In other words, We have managed to negotiate that the Chinese drop their certificate commission on the Ventilators.

2. Model: Eternity SH300 - CE APPROVED, ISO , Price per unit

5.1.1c

this model is 5.500 euro more expensive than the VG70 and not FDA approved.

Available Stock Quantity - 620 units

Shipping - immediate

Best Regards,

5.1.2e
