Subject Letter of Intent for Cooperation

Dear respected [redacted] 5.1.2e

On behalf of the Ministry of Health of the Kingdom of The Netherlands, I would like to express our sincere willingness for a close cooperation with you and your company.

As we all know, the corona virus epidemic is spreading globally and threatening the health and life of many people worldwide. We are very happy to see that Chinese people have successfully taken control of this epidemic by your costly persistent endeavors.

However, this terrible virus has spread in other regions, such as The Netherlands, and it has already caused infection of many inhabitants of the Netherlands and hundreds of deaths in our country. In order to safeguard our people and fight against the Coronavirus, medical supplies, such as isolation gowns and protective coveralls, are of essential importance for our anti-virus activities. In this regard, I would like to seek for your strong support in providing these urgent medical supplies.

We know, Shengguang Group/Joinkona Medical Products Co. Ltd. is one of the market leaders in the industry and it has realized enormous achievements under your wise and powerful leadership.

We have demanded your company to provide The Netherlands millions of such medical supplies and we sincerely hope that you will support us in supplying the medical supplies in time.

Your strong and timely support is highly appreciated by our people in The Netherlands. In case of any support you might need from us, please feel free to contact us.

Yours sincerely,

[redacted] 5.1.2e

On behalf of the Minister of Health
Kingdom of the Netherlands
