Hoi [REDACTED]

Begreep van uit FIN dat er nog geprobeerd wordt de overeenkomst met AZ onder EU te schuiven.

Heb [REDACTED] om toelichting gevraagd.

Als ik de EU agreement goed begrijp (alleen heel snel gelezen) sluit de EU alleen een soort raamovereenkomsten (advanced purchasing agreements) de lidstaten sluiten op basis daarvan individuele contracten. EU financiert alleen de upfront kosten (dus niet alle kosten)

Under the present agreement, this challenge will be addressed through concluding EU-level Advance Purchase Agreements ("APA") with vaccine manufacturers when necessary, to secure access to vaccine candidates where they are successful, including up-front EU financing to de-risk essential investments to increase the speed and scale of manufacturing successful vaccines. Funding for the up-front payments will come from the Emergency Support Instrument (ESI).
