section 4.1 TNO.docx

H 5.1.2e

You will find attached section 4.1 (I was not able to discuss this version with 5.1.2e , so perhaps it will be updated).

5.1.2e

I hope you are all well...

Time is running. In our experience with H2020 (we are now starting a new H2020 funded Consortium for COVID-19), we have to finalise everything on 1st April at the latest. **That means circulating the draft proposal to all partners at the latest on 25th March.**

- Budget: still challenging... We have not received yet any of the partners or WP budget. Based on discussions with some of you, we will probably need to cut the budget and this would need discussions.
- Section 3: final versions?
- Section 4.1. from each partner
- Section 1 and 2: needs urgently inputs from each of you

- Name: ideas? Some below but not very original
  - Vac Up
  - I-VacUp (increase vaccine uptake)
  - InVacC (increasing vaccine coverage)I
  - I-VacciENET (Increasing Vaccine coverage European network)
  - I-VacciNet

Best regards
5.1.2e (from Madrid-confined)
