Dear Sport Directors,
The European Commission (Directorate-General for Education, Youth, Sport and Culture) commissioned a research assignment aimed at <b>mapping sport statistics and data in the EU</b> . This mapping study would create an overview of data on sport statistics available at national level in all EU Member States, concerning both social and economic aspects of sport, including from all relevant sport organisations. The general objective of the mapping study is to support evidence-based policy making at EU and national levels. It will help the sport sector and the public sector, i.e. policy-makers and decision-makers at all levels of government, by improving the collection of comparable and accurate data for sport and the sport-related economy.
As part of this exercise, <u>KEA European Affairs</u> (leader of this research assignment) has developed a survey dedicated to Sport Directors which inquires on the availability of data related to several indicators of the economic and social impact of sport at national level.
I would be thus grateful if you could provide your assistance to KEA European Affairs and agree to take part in this work by responding to the survey questions. For more flexibility, the survey is available in two formats:
<ul> <li>a Word document (attached to this email): the questions can be answered directly in the document which then has to be sent to: 5.1.2e @keanet.eu and to 5.1.2e @keanet.eu;</li> <li>an online questionnaire which can be accessed via the link: 5.1.2e and be completed online;</li> </ul>
Please send your response no later than 28 February 2021 on either of the above-mentioned survey formats. You are encouraged to attach to your email any informational documents which may complement your responses to the survey's questions.
For any questions you might have, please contact KEA European Affairs research team:  5.1.2e  @keanet.eu  6.1.2e  6.1.2e  6.1.2e
