Onderwerp: Re: limited license agreement

Dear [REDACTED],

Attached the revised License Agreement with a few edits to address the third party manufacturer situation including comments. If you're fine with the changes, please add the company name and business address of the third manufacturers and send the draft back to me so that I can finalize the agreement for signatures later tonight. This should allow us to have a fully executed agreement by tomorrow morning.

Kind regards,

[REDACTED]

Hello [REDACTED],

No, for sure two (at the most). We have currently 2 paths strategy and the tools are ordered (one in the Netherlands and one in China). Both for different converters and they are preparing everything now, but if this changes I let you know.

Met vriendelijke groet,

Mit freundlichen Grüßen,

With kind regards,

Onderwerp: Re: limited license agreement

Thanks, 5.1.2e. The fact that there are third party manufacturers involved is new to me, but no worries, we get this resolved quickly. One question: Do you already know that the manufacturing will be limited to those two companies? Or do you expect that there will be more?

Regards, 5.1.2e
