Hi,

Today the links are there on the English webpage 

[Omicron variant B.1.1.529 | RIVM](#)

Best wishes to all [REDACTED]

Hi [REDACTED]

Maybe [REDACTED] already answered your question. But, better two times than not.

Reports for evaluation self-tests with wildtype and Omicron SARS-CoV-2 can be found here: <https://www.rivm.nl/coronavirus-covid-19/virus/varianten/omikronvariant>. Scroll down to the bottom for the section on self-tests. This is the Dutch language webpage. The reports are in English. The English version of the webpage is being updated and therefore does not include the links yet: <https://www.rivm.nl/en/coronavirus-covid-19/virus/variants/omicron>

Omicron: https://www.rivm.nl/sites/default/files/2021-12/SARS-CoV-2%20Self-test%20with%20omicron%20variant%20_1.3_Final.pdf

Wildtype: https://www.rivm.nl/sites/default/files/2021-12/Technical%20evaluation%20of%20SARS-CoV-2%20Self-test_Final_Version1.pdf

Best regards,

[REDACTED]

Dear 5.1.2e

Will this information also be published as an open source? E.g. RIVM site as done previously with other similar type of documents?

Sincerely,

5.1.2e

Dear all,

Please find attached some analysis done at RIVM with regard to the Omicron variant and selftests that are provided by the Dutch government.
 IN case of questions, please feel free to contact us.

Best wishes 5.1.2e
