[Form A Horizon Europe - RIVM - 9-5-2021.docx](#)

Dear [redacted] 5.1.2e

Also on behalf of [redacted] 5.1.2e please find attached the filled form for RIVM.

We feel we can contribute to data sharing of VASCO data within WP4 and WP5, and potentially VASCO and a Long-COVID cohort data within WP6.

As we will attract a PhD candidate for the VASCO study, we would like to explore the possibility of this candidate conducting analyses on the collated datasets to be collected within WP4 and/or WP5.

Best regards,

[redacted] 5.1.2e

Dear 5.1.2e

I will send the form later today. Or would this weekend also be fine? Can you also include 5.1.2e and 5.1.2e in next e-mails?

Best, 5.1.2e

Dear 5.1.2e

Could you follow up on the email below regarding inclusion to the UNITED-CC proposal?

Given the short timeline it would be great to hear back from you asap.

Thanks!

Have a nice weekend,

5.1.2e

Met vriendelijke groet/ Kind regards,

5.1.2e

**Subject:** Welcome to UNITED-CC Emergency COVID call - Next steps

Dear 5.1.2e

Welcome to the UNITED-CC consortium, it is a pleasure to count on you and RIVM as a partner and with 5.1.2e as a linked cohort. As 5.1.2e has probably told you, we are building a proposal for the '[Cohorts united against COVID-19 variants of concern](#)' call, with (extended) deadline on May 11<sup>th</sup> at 17:00 CET. Here some points of attention given the short timeframe:

1. Could you share with us the attached admin template by tomorrow Friday end of the day? Then we will register you in the EC Portal.
2. In this [link](#) you will find the SharePoint where the draft of the proposal is stored. You should have received an invitation (check also you spam/junk inbox)
3. Our colleagues 5.1.2e (in CC) from UMCU will contact you soon regarding the budget.
4. Our partner 5.1.2e from Uni Heidelberg (in CC) is coordinating the WPs and can help you fitting your contribution in the work plan.

Looking forward to working with you and have a nice evening,

5.1.2e

Met vriendelijke groet/ Kind regards,

5.1.2e

**Subject:** Next steps - RE: UNCOVER UNCOVERED!

Dear colleagues and friends,

Thank you for the interest many of you have expressed in resubmitting an updated version of the UNCOVER application to the ['Cohorts united against COVID-19 variants of concern' call](#). The deadline for this call is soon, on May 6 at 5pm CET.

In preparation of the resubmission, we have done the attached gap analyses, comparing the original UNCOVER application with what is asked for in the current call. We concluded that the new proposal should shift its focus to enable real-time monitoring and characterisation of (emerging) **SARS CoV-19 variants of concern** including responses to various vaccines and vaccination schemes. We also need to include a much stronger focus on impact.

To meet these requirements, we will have to restructure, reprioritise, and rewrite the original WPs. Some WPs may have become redundant under the current call, which could result in fewer consortium members. The budget available for the current call is 7 to 10 million euro, which is significantly less than the original 20 million. Budget changes are therefore also inevitable, including a shorter duration of the project.

We have scheduled a consortium meeting on **Monday April 26 at 3-5pm CET** to discuss the resubmission further. The meeting invite will be sent shortly.

**For now, could you please indicate, as soon as possible, whether information on SARS CoV-19 variants is currently, or will become, available for which of your cohorts?** We will prepare and circulate a proposal for the necessary changes and new WP structure based on this. We will also circulate a list with more detailed questions by the end of week that will help to refocus and triage for further discussions around the structure and content of the proposal.

Please do not hesitate to contact me in case of any questions or concerns.

Best wishes,

also on behalf of 5.1.2e ,
