Onderwerp: FW: facial mask producer

Dear [redacted] 5.1.2e

As just talked to you by phone I am working at stichd organization as Head of Sourcing which is 100% owned by sports brand PUMA AG.

During the start of the Covid-19 at China beginning Jan this year I have noticed that because of the shortage of facial mask at China one of our local socks supplier started also the production of facial mask.

I have asked my china colleague [redacted] 5.1.2e at our Shanghai office if she could check the availability of reliable facial mask production at China at our socks supplier but also to look at other suppliers.

At the same I have asked her to contact those supplier to check if there is still capacity available and if they have a license for export.

Both was confirmed positive.

Below at her email you can find email/phone details of reliable suppliers, and more supplier unfortunately mentioned in Chinese at enclosed list.

I have asked my colleague if it was okay to share her contact details as she speaks fluently English but also is used to act in a fast way.

This was okay and I have put her also on Cc at this mail.

Contact person Shanghai China:
