Hi [redacted]

The hospital is in charge of ordering the supplies, we don't have detailed oversight on what they order where. The best way is to coordinate with the hospital on this, what they communicate to you should be what they need.

Best regards,

Hi 5.1.2e

The email chain below discusses the equipment/supplies that we have been asked to transport down to Sint Maarten this week. The items included seem to be well short of the list that was being circulated earlier this week. Are those other items coming from the Netherlands?

Sorry to keep bringing this up but I just want to make sure everything that is supposed to go to Sint Maarten when this week's flight departs makes it on to the flight (currently scheduled for Wednesday morning). Hope you are enjoying your Sunday!

As per my previous, logistics says this is not an issue to support. SMMC would need to send the supplies to our warehouse in Miami so the supplies can be pushed to the flight(s).
