Beste 5.1.2e

Met ons gaat het goed hoor. Ik denk dat de druk bij jullie in de zorg nu groter is. Hopelijk brengt te komende periode ook verlichting.

Met betrekking tot je vraag over de inzet van monoklonale antistoffen kan ik je bevestigen dat we daar inderdaad actief mee aan de gang zijn.

Sowieso, is het hyperimmunoglobuline product van Sanquin beschikbaar voor (specifieke) patiënten. Daar is een indicatiedocument voor opgesteld door een werkgroep van medisch specialisten. Op aanvraag kan het Sanquin product dan geleverd worden.

Daarnaast hebben we als NL ingetekend op de centrale inkoop en levering van het monoklonale antilichaam van Roche. Dat betreft nog een noodtoelating vóór registratie van het product. Leveringen verlopen via het RIVM. We zijn op dit moment juist bezig met de contacten met de FMS/SWAB ea om helder te krijgen voor welke patiënten dit ingezet zou moeten worden. Dat loopt onder de leiding van mijn 5.1.2e 5.1.2e. 5.1.2e zou even bij hem (of 5.1.2e kunnen informeren naar de laatste stand van zaken en met wie de contacten bij de FMS verlopen.

Daarnaast zijn we in gesprek met enkele andere firma's die ook dergelijke producten (gaan) aanbieden maar daar zijn nog geen afspraken mee tot stand gekomen.

Hoop dat dit voldoende antwoord geeft op je vraag?

Groet

Goedemorgen 5.1.2e

Leven jullie nog een beetje? Hopelijk wordt de derde golf inderdaad niet zo heftig als twee weken geleden nog leek. Wij hebben in het Amsterdamse vorige week dinsdag nog moeten besluiten om op te schalen en dus vakanties van zorgpersoneel in te trekken. We gaan er maar even van uit dat dit de laatste keer is.

Mogelijk heb je het artikel van [redacted] 5.1.2e et al in de Volkskrant van afgelopen vrijdag gelezen. Het bevat een pleidooi om monoklonale antistoffen in te zetten bij de behandeling van COVID. Kun jij de vraag van [redacted] 5.1.2e (neemt Nederland deel aan de aanbesteding?) beantwoorden?

met hartelijke groet,

[redacted] 5.1.2e

Hoi [redacted] 5.1.2e

Hoe gaat het? Ik heb even vraag, nav een opiniestuk dat ik schreef met collega's in de Volkskrant, zie mail hieronder.

Ik vroeg me af of jij contacten bij VWS hebt bij wie we zouden kunnen nagaan of Nederland deelneemt aan de aanbesteding in monoklonalen tegen COVID?

Dear [redacted] 5.1.2e

That is really great! Thank you very much.

Hope that it will help.

I take this opportunity to let you know as well as [redacted] 5.1.2e that apparently there has been a joint procurement for Regeneron and Eli Lilly monoclonals organized by the EU Commission. France, Germany and Italy seem

to be part, but not Belgium !!! You should check for the Netherlands..

With warm regards,

5.1.2e

Dear [REDACTED]

Unfortunately we did not succeed to identify a Flemish newspaper accepting to publish our OpEd. So far published in French (Le Soir-Belgium, Figaro-France, Le Temps-Switzerland), English (BrusselsTimes), Portuguese (Public). Would be great to get it in Dutch indeed !

Kind regards,

[REDACTED]

Dear [REDACTED]

I have helped [REDACTED] with the article for the Dutch newspaper. I am glad we succeeded in making a text that I just submitted to NRC, one of the leading newspapers in Holland. I think you can compare it with Le Soir in Belgium.

They are not going to put all the ten names, I am working on that. As it will also be in print a url with all the names does not work. I think about it.

I keep you posted.
