Dear [redacted] 5.1.2e

Thank you for your email.

I can confirm I have added [redacted] 5.1.2e to the CCB Mailing List. I'm not sure you had the right email address for [redacted] 5.1.2e so I have added the one I have just in case!

Best regards,

[redacted] 5.1.2e

Dear [redacted] 5.1.2e

At my institute we have a new [redacted] 5.1.2e [redacted] 5.1.2e (in cc).

He will focus on PACS and would like to join the CCB - and the PACS working group meetings. He is also a colleague of [REDACTED] and me and working for the Dutch RIVM longcovid-research group which we presented at [REDACTED] workgroup meeting some time ago.

Could you please also add him to the mailing list?

If you need further information, please do not hesitate to contact me or [REDACTED]

Kind regards,

[REDACTED]

Dear 5.1.2e

You should have received the calendar invitation now, it is at 12:00-13:00 CET this Friday. Please could you send me a title for your presentation to include on the Agenda?

Presenters usually present their slides using the "share screen" function on Zoom, but please do send me your

slides in advance in case of any technical problems that may arise!

Best wishes,

Dear [redacted] 5.1.2e thank you for linking us in with [redacted] 5.1.2e

Dear [redacted] 5.1.2e

We would be very happy for you to join us at the CCB meeting on **Friday 15th December**, I'll send you the invite and link shortly. We actually have a slot free and would like to invite you to give a short presentation on your project during this meeting. Please let me know if you'd like to present and I will add you to the agenda.

I look forward to hearing from you.

Dear [redacted] 5.1.2e

Please see below a message from [redacted] 5.1.2e colleagues from the Netherlands, interested in participating in the next CCB on Friday. They are developing activities on long covid that are quite in line with our CCB's working group, and it would be great if they can start also contributing to our ongoing action.

Thanks, [redacted] 5.1.2e for reaching out. [redacted] 5.1.2e is our CCB chair and her team at Uni Verona is coordinating the meetings and keeping us together.

Kind Regards,

[redacted] 5.1.2e

Asunto: RE: introduction to new dutch long long covid consortium

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Thanks for the kind introduction [5.1.2e]

Dear [5.1.2e] was intrigued to learn about the work of your consortium and it seemed to me that there is good potential for synergy between our projects. Hence I wondered if it would be useful to introduce ourselves e.g., at your upcoming meeting, and see how we might connect our efforts?

To give you some context: The medical research council in the Netherlands (ZonMw) provided us with the opportunity to establish a national infrastructure for Post-COVID research. One WP, in which [5.1.2e] and I collaborate, involves building a biobank cohort that will consolidate various existing cohorts into a unified resource.. This cohort will serve both as a repository for biomaterials and as a registry for patients interested in clinical trials. Additionally, we are working on linking this trial infrastructure with healthcare practice improvement.

In preparation of these activities, we now focus on activities like harmonizing data, prepare FAIR data models, and develop a shared CRF. Recognizing the importance of aligning with overlapping international initiatives, [5.1.2e] suggested that we get in touch and see how we could connect which seems extremely valuable to me.

Let me know how we might follow-up,

Kind wishes,

[5.1.2e]

CC: [5.1.2e] [5.1.2e] @uva.nl>

Onderwerp: introduction to new dutch long long covid consortium

Dear [5.1.2e]

Unfortunately I could not attend the last CCB WG Long Covid meeting, but December 15th I will attend on behalf of the RIVM Long Covid Research Group.

I would also like to introduce you to [5.1.2e] (in the cc), who is one of the PI's of a new consortium in the Netherlands focused on establishing a knowledge and expertise network focused long covid.

This open network will be created in the Netherlands in which existing and developing knowledge and expertise on post-COVID in the Netherlands, will be connected with an sustainable infrastructure to efficiently facilitate and harmonize research on post-COVID. This will enable that relevant outcomes from this and other research, can be shared quickly and adequately with involved healthcare professionals and patients. To this end, scientists, healthcare professionals, patients and social partners from various centers and organizations will work closely together.

One of the aims is to use and develop an eCRF, that's one of the reasons I would like to connect you.

Is there a possibility that [5.1.2e] and his colleagues can join the next meeting December 15th? (I couldn't find at what time this meeting take place).

Otherwise it would be nice if you and [5.1.2e] can set up a meeting where [5.1.2e] can introduce his project.

Thank you in advance.

Met vriendelijke groet,

5.1.2e
