Hi,

Sorry, I forgot to make the last changes to the study rules chapter, thus hereby again a updated document. Thereby also some "dummy" email templates if needed.

Kind regards,

[redacted]

Thank you for the updated document.

[redacted] yes, that's right - it is possible to set maximum number of characters easily (just not sure if you have it already in your version, but will have it very soon if not yet). For minimum number of characters, we need to add a "validation", checking what was entered. (Something we can do later, right now only through adding it through the source editor, later there will be graphical UI for it)

Looks very good!

Is it right that for the Text\_input question the minimal and maximum number of characters can be defined in the survey editor? E.g. for postal code this would be exactly 6, but for free text comments questions that would be maybe up to a maximum of 500 or even 1000.

Vriendelijke groeten,

[redacted]

Hi [REDACTED] 5.1.2e

Thank you, I added a new version of the document, where I highlighted the formatted question options in single/multiple choice questions. **With purple.**  
As we discussed in our last meeting.

Kind regards,

[REDACTED] 5.1.2e

Thank you, [REDACTED] 5.1.2e

It looks good to me, will help to progress with that.

Right now, we are working on the authentication workflow with the new backend and frontend, once that's sorted (hopefully very soon), we can use this document to prioritise the question types implementations and prep the dummy questionnaire.

Wish you a nice holiday!

Hi [REDACTED] 5.1.2e

Please see the excel file in the attachments, there is a excel sheet called "example questions", were I added the example question types.  
I was wondering if these example questions are sufficient to build the "dummy" questionnaire for the 13the of May.

Kind regards,

[REDACTED] 5.1.2e
