Dear 5.1.2e

Thank you for your mail. The number of vials as mentioned in the document for the Netherlands is correct. These are the vials for which we were not able to extract the 6th dose due to shortage of LDV-equipment in mentioned period.

Kind regards,

Dear 5.1.2e & the team,

We were in discussion with Anne whether there is a need for the EC to countersign the declaration form. We came to the conclusion that we will proceed without the EC signature. We have also amended the language related to the deadline to reflect the current applied process.

Please find attached a slightly modified draft for your final review. Kindly confirm the number of doses where you have not been able to extract the 6th dose during the Impacted Period, latest by Monday 15 MAR 2021. We will then share the execution copy for your signature. We really appreciate your prompt feedback as we are not able to hold this process longer and we will need to proceed with the credit note for all eligible member states together.

BR,

Dear 5.1.2e

Thank you for your mail.

Please find attached the declaration form of the Netherlands. Our request for rebate is now based on our knowledge considering the lack of availability of LDV-equipment in the mentioned period. However we are looking into this further and hence we might change our request next week (regarding the amount of doses for rebate).
