Hi 5.1.2e

AstraZeneca can accept this from a legal perspective. But we need confirmation that both the EC 5.1.2e and Sweden 5.1.2e are Ok with this as well.

Thanks

Regards,
5.1.2e

Dear 5.1.2e

I was wondering whether you have been able to look into our donation commitment yet. We now have a signed version available with the commitment for all of our vaccines for the rest of this year - 5.1.1c Hopefully the fact that this is such a large donation will make the decision process easier (and the workload lighter ☺). Would it help if our Belgian lawyer contacts your legal team to explain the ideas behind our proposal? If so – could you kindly give me their contact details?

Kind regards,

Dear 5.1.2e

Thanks again for a fruitful meeting this afternoon. Please find attached the donation commitment which we could use for COVAX donations through Sweden. As discussed, we added some text which will ensure we are protected in the same manner Sweden is. It would be very helpful to get your comments or approval by tomorrow morning – so that we will hopefully be able to start donating this week.

Kind regards,

5.1.2e

Onderwerp: Donation Commitment NL

Urgentie: Hoog

Dear all,

Last Tuesday, I circulated a document that we hoped could replace the "Donation Commitment" form, which is not sufficient for the Netherlands because it doesn't bind other parties and doesn't protect the Netherlands. After consulting with Gavi and Norway on Wednesday, we have adjusted the document in order to simplify the procedure. I'm delighted to send you the version attached and I'm confident that this will help us to reach agreement – and for us to start donating to COVAX through Sweden – soon! I will send you an invitation to discuss the document this Monday at 13.00h. Let's have an open discussion then. But first: enjoy your weekend!

Kind regards,

5.1.2e
