Urgentie: Hoog

Goedemorgen 5.1.2e

5.1.2e heeft mij verzocht om de 'side letter' op te schonen (namelijk alle gele highlights weghalen) en de ontbrekende data nog in te vullen.

Zou je deze **Word versie** kunnen **ondertekenen, op 2 plaatsen**, namelijk op pagina 3 en 5

Met dank!

Hartelijke groeten,
 5.1.2e

Subject: RE: IMPORTANT **Comirnaty Pediatric Vaccine 5-11 years**

Dear 5.1.2e

Thank you for getting back to us.

I have noticed the date of the side letter is not entered and the attached annex to the letter is not signed, we would

appreciate if you can sign a final copy including the annex as well.

Regarding your inquiries to order additional 5.1.1c paediatric doses later during the year, we should be able to accommodate your request. I am highlighting below some points clarifying this process (which will continue to be part of the standard ordering process).

- We will open other windows for Participating Member States to confirm binding orders for the second half of 2022 by May 2022 and for 2023 by November 2022.
- In addition to this, once we fully supply the total agreed binding amount provided December 2021 – June 2022, each of the Participating Member States may seek to order additional amounts of Comirnaty® age 5 – 11 for delivery in the period up to end June 2022. Those additional amounts can be:
 - part of an Additional Order agreed with the Commission/other Member States; or
 - via the Participating Member State taking lower amounts of other Products as agreed with Contractor.

We also understand that the 5.1.1c paediatric doses include those amounts you have already received in December/January.

Thank you for your cooperation and hoping to hear from you soon.

BR,

5.1.2e

Subject: [EXTERNAL] RE: IMPORTANT **Comirnaty Paediatric Vaccine 5-11 years**

Dear people at Pfizer,

Please receive the signed letter on Paediatric vaccins.

I have indicated that we would like to receive 5.1.1c paediatric doses, out of the initial 5.1.1c doses we ordered for 2022.

We might want to order more of these doses, later this year from the additional 5.1.1c doses we have ordered.

Please indicate before when we need to inform you on this.

Lastly I would like to point out that we have already received a part of this requested 5.1.1c doses.

Best regards,
5.1. 5.1.2e

Onderwerp: IMPORTANT **Comirnaty Pediatric Vaccine 5-11 years**

Urgentie: Hoog

Dear all,

First of all, the best wishes for 2022!

I am pleased to share with you the 'side letter' for the Comirnaty age 5-11 yrs doses as has been agreed with the EC. This side letter needs to be completed and signed by **January 15th 2022** the latest. This deadline has been agreed with the Commission/Member States and cannot be extended.

Please pay attention to the **yellow highlighted** parts, some of them I have already filled in (please check if this information is still OK). Please complete the 'empty' yellow parts (i.e. 'dates').

And, please fill in the box '**Volume of Comirnaty® age 5 – 11**' w.r.t. the **number of doses for 2022** (December 2021- June 2022).

The letter is referring to the Vaccine Forecast Forms (VFF) as submitted by you on July 14th, 2021.

The guidance that has been agreed with the EC:

1. Participating Member States will notify Contractor with a **total minimum amount of Comirnaty® age 5 – 11 for half of 2022** (i.e. December 2021 to June/July 2022) during the 30 days period from Authorization. Those amounts shall be binding and will be ordered by the Participating Member States for delivery by latest June 2022 (by July 2022 for Belgium).
2. We will not amend the VOFs, however we will share with each of the Participating Member States a side letter template that should capture those amounts and act as a formal notice.
3. The deadline for the notice was originally 26 December 2021 (30 days period after Authorization). Yet, given the encountered delay, we have agreed with the Commission to extend this deadline to **15 January 2022**. We will share the side letter template by the first week of January, to be mutually signed by **15 January 2022**.
4. At the beginning of each month, Contractor will notify the Participating Member States of **the pro-rated allocated monthly amounts** of Comirnaty® age 5 – 11 available for order.
5. Through the existing weekly ordering mechanism, Participating Member States may order **up to the** amounts of Comirnaty® age 5 – 11 allocated to them in a given month, provided that:
 - i. In any month where a Participating Member State orders less than their monthly allocation of Comirnaty® age 5 – 11, the balance of their total monthly Contracted Doses will be made up by other SKUs, and

- ii. Each monthly allocation of Comirnaty® age 5 – 11 will count towards the total binding amounts of Comirnaty® age 5 – 11 that each Participating Member State will indicate under the side letter, until Contractor has supplied the indicated total amounts.
 - iii. the total amount of Comirnaty® age 5 – 11 for half of 2022 notified by the Participating Member State during the 30 days period from Authorisation will be ordered by the Participating Member States for delivery by latest June 2022 (by July 2022 for Belgium);
 - iv. Contractor will open another window for confirming binding orders by June 2022, so that Participating Member States would order the remaining amount of Comirnaty® age 5 – 11 for 2022.
6. Once the Contractor fully supplies the total agreed binding amount provided during the 30 days period from Authorization, Participating Member States may order additional amounts of Comirnaty® age 5 – 11. Those additional amounts can be:
- i. part of an Additional Order agreed with the Commission/other Member States; or
 - ii. via the Participating Member State taking a lower amount of other SKUs as agreed with Contractor.

Please let me know if you need additional information or clarifications.

Thanks again for your collaboration!

Speak to you soon.

Best regards,
