As we prepare for delivery of the Novavax Covid-19 vaccine into your country, we would like to provide some additional information. Please share this information with the appropriate teams.

Banking & Invoicing Information:

As you prepare for invoicing, please find the Novavax banking instructions in the attached file.

As per the EUC APA, invoices will be sent in PDF format by email to the address(es) provided in the Vaccine Order Form.

ACTION NEEDED: Please provide a purchase order number by 1/28 so that we can add it to our system in time for first deliveries.

Packaging/Dimensions:

You were previously provided with 2 documents - the Product Information Sheet and the Delivery Information Sheet. Since that time, we have updated both documents.

1. Product Information Sheet - updated with final EMA approved specs
2. Delivery Information Sheet - updated with pack outs for Serum

I have also attached copies of the images of the EMA vial and carton so you can see what the product looks like!

GTIN:

We have been asked by several countries to provide the GTIN.

The carton (100 vials) will contain a 1D barcode which will include the GTIN shown below:

EU: All initial shipments

Without Leading Zeros	380631000045
With Leading Zeros	00380631000045

Warehouse Information:

5.1.2h

We understand there will be many questions as we prepare for deliveries, and we are trying to keep things as consistent as possible across Member States to streamline as much as possible. Appreciate your patience!
