Dear all,

I'm very happy to learn that we've found a solution for our concerns regarding the donation commitment. Please find attached the final version of our commitment to donate all vaccines that the Netherlands is entitled to under APA 1 and APA 2 [REDACTED] in total) to COVAX through France. The vaccines are to be donated to lmic countries; there's no need for further earmarking. @ [REDACTED] it would be greatly appreciated if you could return a signed version of annex 2 to us.

Kind regards,
