Thank you 5.1.2e good to hear an MTA is in preparation to move this ahead – I was not aware and want to avoid that preparation work is done not leading to experiments.

Best and happy holidays

Hi 5.1.2e

Hope things are less crazy for you now! I understood that WBVR received a sample now which is great, but unclarity on the possibility to use it for studies to evaluate vaccine potency of Janssen vaccines in vitro/animal studies is still existing without a formal agreement in place. Please let me know if we can help in any way to get to a conclusion on this.

Thanks for your help getting this going,

Roland
